TozziniFreire's Education team has wide experience in providing legal services to companies in the sector, from elementary schools to higher education, including non-profit institutions, language schools, and technical and vocational courses, as well as "corporate universities", in face-to-face, online and hybrid modalities.

We assist local and foreign education sector players in all legal aspects, ensuring technical expertise and mastering the specific needs of educational institutions, the market, and other stakeholders.

Currently, educational institutions face increasing financial pressure, regulatory demands and developments, fierce competition, as well as fast-moving technological opportunities and risks, generational and social changes. In this scenario, our specialized group is able to manage risks inherent in the sector and anticipate market trends, providing clients with the best legal solutions so that their businesses can grow safely and sustainably.

Our multidisciplinary structure, together with TozziniFreire's full-service practice, allows us to assist clients in a wide range of legal matters of different natures.
