TozziniFreire's strong Private Equity & Venture Capital practice has experience in fund formation, asset acquisition, and portfolio structuring, as well as in a wide range of private equity transactional work, including mergers and acquisitions. Our private equity experience includes advising clients on all investment stages, including seed, angel, venture capital, growth, development capital and typical private equity investments. We regularly advise clients on buyouts and disposals by funds managed by local and international private equity houses as well as institutional investors.

Our multidisciplinary group is composed of highly experienced professionals who combine technical skill sets with thorough industry knowledge to provide our clients with a full range of specialised services. Our Private Equity & Venture Capital practice leverages the experience of the firm's preeminent practices, including in mergers and acquisitions, capital markets, fund formation, bank lending, structured finance, tax, and labour.

We have a proven track record across a broad range of industry and service sectors where private equity players focus their investments when entering emerging markets, such as infrastructure, real estate, energy, natural resources, retail, information technology, healthcare, life sciences, telecom, insurance, and the services sector.

STRENGTHS

- Proven track record across a broad range of industry and service sectors where private equity players focus their investments;
- Professionals regularly contribute to reputable publications dedicated to the industry, including the European Lawyer Reference and the book named "Brazilian Commercial Law: A Practical Guide" published by Kluwer International;
- Our professionals are prepared to assist in regard to each and every legal issue that may arise in the context of any activities performed within the private equity & venture capital environment.
