In times when regional or global businesses are quite common, the restructuring and insolvency practice has grown in not only complexity and scale but also in cross-border legal matters. In Brazil, Bankruptcy Law has suffered significant amendments lately, aiming to provide broader legal certainty, procedural promptness, and efficiency to the mechanisms of judicial reorganization, out-of-court reorganization, and bankruptcy.

TozziniFreire provides legal assistance to companies, investors, financial institutions, credit restructuring funds, judicial reorganization proceedings, out-of-court reorganization, and bankruptcy. With a multidisciplinary approach, we have participated in legal operations involving distressed assets, contract renegotiation, and guarantees regarding national and international companies of all areas of activity and business sectors.
