

SHIPPING & LOGISTICS

Multidisciplinary approach and solid experience in the Transportation and Logistics sector

Our operations encompass all activities related to transportation and logistics, both national and international, including various modes of transportation, including projects involving ports, airports, highways, urban mobility, railways, intercity and interstate transportation, as well as terminals, distribution centers and bonded warehouses.

Our multidisciplinary Transportation and Logistics team has in-depth industry knowledge and the technical expertise to meet all of our clients' needs. We have solid experience in privatization processes, modeling projects, bidding processes for transportation infrastructure concessions, regulatory due diligence in concession contracts and public-private partnerships, financing, and supply contracts.

We have significant experience in matters related to international trade logistics operations, having worked for port and airport operators, cargo terminals, freight forwarders, and carriers.

We also work on issues related to customs clearance in ports, airports and other areas, import and export clearance operations, as well as compliance with tax requirements during customs clearance, operations with Dry Ports, issues related to cargo consolidation and deconsolidation and Maritime Law.

Our clients include the most important companies operating in the logistics sector, both in Brazil and abroad, e-commerce platforms, as well as state governments, regulatory agencies and public bodies.

✓ MAIN SERVICES
