TozziniFreire's work covers all activities related to national and international shipping and logistics, including different transportation mode, among which we highlight projects involving the sectors of ports, airports, highways, urban mobility, railways, intercity and interstate transportation, in addition to terminals, distribution centers and bonded warehouses.

Our multidisciplinary Shipping & Logistics team has deep knowledge of the sector and technical quality to meet all of our clients' needs. We have solid experience in privatization processes, modeling projects, biddings for the concession of transport infrastructure, regulatory due diligence in concession contracts and public-private partnership contracts, supply contracts, and financing.

We have relevant experience in issues related to logistics operations in international trade, assisting port and airport operators, cargo terminals, cargo agents and carriers. Our work includes matters regarding customs in ports, airports and other areas, clearance operations for import and export, as well as compliance with tax requirements in the course of customs clearance, operations with Dry Ports, including consolidation and deconsolidation of cargoes and Maritime Law.

We have among our clients the most prestigious companies in the logistics industry, in Brazil and abroad, e-commerce platforms, as well as state governments, regulatory agencies, and public bodies.

Services

- Risk assessment of transport and logistics infrastructure projects;
- Assistance in the participation in bids and in the management and review of contracts with the Public Administration;
- Regulatory assistance with concession contracts, PPP, authorizations, as well as with administrative proceedings;
- Negotiation with suppliers and clients, including the drafting of transport contracts and potential legal litigation;
- Tax assistance in transactions;
- Drafting and negotiation of purchase and sale, lease and leasing agreements related to vehicles, vessels or aircraft.
